## **DETAILED ACTION**

### ***Drawings***

Figure 1 should be designated by a legend such as --Prior Art--, or --Conventional--, because only that which is old is illustrated. See MPEP § 608.02(g). Corrected drawings in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. The replacement sheet(s) should be labeled "Replacement Sheet" in the page header (as per 37 CFR 1.84(c)) so as not to obstruct any portion of the drawing figures. If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

### ***Allowable Subject Matter***

Claims 1, 6-9, 16, 19, 20 and 22-26 are allowed.

The following is an examiner's statement of reasons for allowance: The closest prior art Ramesh et al. US 6,642,539 teaches a memory (storage medium) and method of obtaining a barrier layer from a conductive material (metallic underlayer) with ferroelectric memory cells (Col. 9, Line 14-23). However, Ramesh et al. US 6,642,539 fails to teach, suggest or render obvious a storage medium including a metallic underlayer such that the ferroelectric data layer covers the metallic underlayer and serves as a layer for storing information as bits defined by a sign of polarization of

Art Unit: 1794

domains within the ferroelectric data layer, each polarized domain comprising a volume dipole polarization within said ferroelectric data layer, as argued by applicant in response filed on 9/24/2009.

Examiner also notes that Nauka et al. 7,391,706 discloses a ferroelectric data layer but does not disclose the layered structure including the charge migration layer.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

### ***Conclusion***

Any inquiry concerning this communication or earlier communications from the examiner should be directed to GARY D. HARRIS whose telephone number is (571)272-6508. The examiner can normally be reached on 8AM - 5PM EST.
